13. Troubleshooting & FAQ

1. Getting Started

1.1 Logging In

1. Open your browser and navigate to the EPVS application URL.
2. Enter your email address and password on the login page.
3. Click "Sign In" to access the system.
4. You will be redirected to the Dashboard.

Tip: If you have forgotten your password, contact the Super Admin to reset it for you.

1.2 Navigation Bar

The navigation bar at the top of every page provides access to the system areas available to you:

Menu Item	Description
Dashboard	System-wide overview with KPIs, charts, statistics, and recent activity
Clients	Consolidated Master Abattoir Database — manage client/facility records
Inspectors	Inspector dashboard — approve/reject EPVs, track facility visits
Administrators	Financial reconciliation dashboard — manage payments and outstanding amounts
Company Overview	Detailed view of any company — EPV history, contacts, payment status
Support	Support ticket management — view, assign, and respond to tickets
User Management	View and edit user accounts (some actions are Super Admin only)

Your name and role badge ("Admin") are displayed in the top-right corner alongside the "Sign Out" button.

2. Your Role: What Admins Can and Cannot Do

As an Admin, you have near-full access to the system for day-to-day operations. However, a few actions are reserved for the Super Admin.

2.1 What You Can Do

- View the Dashboard with all KPIs, charts, and statistics.
- Manage client records — add, edit, delete, view change log.
- Send EPV forms to clients.
- Invite company users to the system.
- Approve or reject EPVs on the Inspector Dashboard.
- Create Inspector EPVs when rejecting a client submission.
- View all provinces on the Inspector Dashboard (province filter).
- Reconcile payments on the Administrator Dashboard (single, batch, or full).
- View and manage any company on the Company Overview.
- View, edit, activate/deactivate users on the User Management page.
- Manage support tickets — assign, update status/priority, add comments.
- Create support tickets from any page via the floating Support button.

2.2 What Only Super Admin Can Do

The following actions are restricted to Super Admin and are not available to you:

- **Edit KPI Targets:** The "Edit Targets" button on the Dashboard KPI module is only visible to Super Admin.
- **Add New Users:** The "+ Add User" button on User Management is only available to Super Admin.
- **Reset User Passwords:** The "Reset PW" button is only available to Super Admin.

Tip: If you need any of these actions performed, contact your Super Admin or submit a support ticket.

2.3 Role Hierarchy

Role	Access Level	Primary Responsibilities
Super Admin	Full system access	Everything including KPI targets, user creation, and password resets
Admin (You)	Near-full access	Day-to-day operations: EPVs, reconciliation, client management, user editing
Inspector	Inspector dashboard only	Approve/reject EPVs, facility visits (province-filtered)
Company Admin	Company overview only	View facilities, create manual EPVs, upload POP
User	Basic company access	Complete EPV forms, upload POP

3. Dashboard Overview

The Dashboard is your central command centre, providing a holistic view of the entire EPVS system.

3.1 Quick Stats Cards

Four clickable cards at the top provide key metrics:

- **Total Users:** Total users in the system and count of active users. Click to go to User Management.
- **Total Clients:** Total client/facility records and verified count. Click to go to Clients.
- **EPV Forms:** Total EPV forms and completed count.
- **Support Tickets:** Total tickets and open count. Click to go to Support.

3.2 Performance KPIs

Four KPI gauge cards display real-time performance against targets:

KPI	What It Measures	Default Target
Collection (Prior Months)	Percentage of billed amounts paid for past months	80%
Collection (Current Month)	Percentage of current month billed amount paid	80%
Approvals Actioned	Percentage of completed EPVs verified by an inspector	90%
Facilities Visited	Percentage of facilities physically visited this quarter	100%

Each card is colour-coded: green (on target), orange (approaching), or red (below target).

Note: KPI targets are set by the Super Admin. If you believe targets need adjustment, contact them.

3.3 Action Items & Financial Summary

Action Items (left panel) — click any card to go to the Inspector Dashboard:

- Pending Approvals — EPVs awaiting inspector verification.
- Inspector EPVs to Complete — rejected EPVs needing inspector forms.
- Facilities Need Visit — no inspection this quarter.
- Not Completed EPVs — facilities missing EPVs this year.

Financial Summary (right panel):

- Total Billed, Total Paid, Outstanding amounts.
- Egg Levy and Pulp Levy breakdowns.
- Overall Collection Rate.

3.4 Charts & System Overview

The Dashboard includes four interactive charts (Billed vs Paid, Egg vs Pulp Levy, Facilities by Province, Rejections by Province), an EPV Statistics row, a System Overview with user/client/ticket breakdowns, and a Recent Activity section showing the latest users and tickets.

4. Client Management

The Clients page (Consolidated Master Abattoir Database) is where you manage all facility/client records.

4.1 Viewing Clients

The page displays a paginated table (50 records per page) with columns including: Status, Client ID, Business Name, Email, Town, Province, and more.

Tip: Use the search bar to find a client by name, ID, email, or town.

4.2 Adding a New Client

1. Click the "+ Add New" button at the top of the page.
2. A blank row appears with editable fields.
3. Fill in at minimum: Client ID and/or Business Name.
4. Fill in other fields: Email, Town, Facility Type, Province, Company Reg No., Physical Address.
5. Click "View" to expand contact details and fill: Abattoir Owner, Accounts Contact, Abattoir Manager.
6. Click "Add" to save.

4.3 Editing a Client

1. Click the "Edit" button on the client row.
2. Fields become editable; contact details auto-expand.
3. Make changes — modified fields are highlighted.
4. Click "Save" to commit, or "Cancel" to discard.

Note: All changes are logged in the audit trail with your name and timestamp.

4.4 Deleting a Client

1. Click the "Delete" button on the client row.
2. Confirm in the modal.

Note: This action cannot be undone.

4.5 Change Log

Click "Change Log" to toggle to the audit trail view showing every change made to client records: Date/Time, Client ID, Business Name, Field Changed, Old Value, New Value, and Changed By.

Tip: Click "History" on a specific row to filter the log to that client only.

4.6 Inviting a Company User

1. Ensure the client has a valid email.
2. Click the "Invite" button.
3. Select role: "Company Admin" or "User".
4. Click "Send Invitation".
5. The client receives an email with a registration link.

5. Sending EPV Forms to Clients

5.1 How to Send an EPV

1. Navigate to the Clients page.
2. Find the client/facility.
3. Click the "Send EPV" button.
4. The system generates a unique reference number (e.g., EPV-2026-03-0042), creates a Pending record, auto-populates opening stock from the previous month, and emails a secure form link to the facility contacts.
5. A success message confirms the EPV was sent.

Note: Only one EPV per facility per month is allowed. The system blocks duplicates.

5.2 What the Client Does

The client completes a 4-step form:

- **Step 1 — Business Details:** Facility name, type, province, authorised person, contacts.
- **Step 2 — Egg Levy:** Opening stock, purchases, deductions, sales. Egg Levy = Total Sales x 1.8%.
- **Step 3 — Pulp Levy:** Pulp stock, purchases, conversions, sales. Pulp Levy = Pulp Sold to Trade x 1.7 x 1.8%.
- **Step 4 — Review & Submit:** Review all figures and submit. Status changes to "Completed".

5.3 After Submission

- Status changes from "Pending" to "Completed".
- EPV appears on the Inspector Dashboard under "Pending Approvals".
- Reference number, amounts, and levy calculations are locked in.

6. Inspector Dashboard

The Inspector Dashboard provides tools for EPV verification and facility visit tracking. As Admin, you can view all provinces or filter by a specific one using the province dropdown.

6.1 Performance KPIs

Four KPI cards: Collection Rate (prior and current months), Approvals Actioned, and Facilities Visited. Colour-coded and filtered by the selected province.

6.2 Five Tabs

Tab	Shows	Actions Available
Pending Approvals	Completed client EPVs awaiting verification	"Approve" or "Reject & Inspect" per row
Inspector EPVs	Rejected EPVs needing inspector form completion	Click to open inspector form
Facilities Need Visit	Facilities with no inspection this quarter	View facility details
Outstanding Payments	Facilities with outstanding levy amounts	View outstanding per facility
Not Completed	Facilities missing EPVs for months this year	Filter by month; identify gaps

Tip: Each tab has a search bar and sortable columns. Click any column header to sort.

6.3 Financial Summary & Charts

A financial summary panel and two charts (Billed vs Paid, Egg Levy vs Pulp Levy) appear below the tabs.

7. Approving & Rejecting EPVs

7.1 Approving an EPV

When the client's EPV figures are correct:

1. Go to the Inspector Dashboard > "Pending Approvals" tab.
2. Find the EPV (use search or sort).

3. Click "Approve".
4. The system records your name, role, and timestamp.
5. The EPV is marked as Verified and becomes eligible for reconciliation.

7.2 Rejecting an EPV

When the figures are incorrect:

1. Click "Reject & Inspect" on the EPV row.
2. Confirm in the dialog.
3. The system creates a new "Inspector EPV" linked to the original.
4. You are redirected to a blank EPV form.
5. Fill in the correct production figures.
6. Submit the inspector form.

Note: The original client EPV is preserved for audit purposes. The inspector EPV is the corrected version.

7.3 What Makes an EPV Appear for Approval

An EPV appears under "Pending Approvals" when all of the following are true:

- It was submitted by the client (EPVType = "Client").
- The form has been completed and submitted (Status = "Completed").
- It has not been approved yet (IsVerified = 0).
- No Inspector EPV has been created for it yet.

8. Administrator Dashboard & Reconciliation

The Administrator Dashboard is focused on financial reconciliation — matching levy payments to billed amounts.

8.1 KPI Overview

KPI	What It Measures	Target
Collection Rate	Percentage of billed amounts received as payment	80%
Reconciliation Rate	Percentage of EPVs fully reconciled	90%
Outstanding Rate	Percentage of billed amounts still outstanding (lower is better)	5% or less
Verification Rate	Percentage of EPVs verified by an inspector	90%

8.2 Reconciliation Tabs

- **Outstanding:** EPVs where levy has not been fully paid. Outstanding = Total Billed - Reconciled Amount > 0.
- **Partial:** EPVs with some payment received but balance remaining.

- **Reconciled:** EPVs fully paid and marked as reconciled.

8.3 Filters

- Province — filter by South African province.
- Month — filter by reporting month.
- Year — filter by reporting year.
- Search — by business name, client ID, or reference number.

8.4 Reconciling a Single EPV

1. Find the EPV in the Outstanding or Partial tab.
2. Enter the payment amount in the input field.
3. Click "Reconcile".
4. If the amount covers the full bill, the EPV moves to "Reconciled".
5. If the amount is less, the EPV moves to "Partial".

8.5 Mark Full Payment

1. Click the "Mark Full" button on the EPV row.
2. Reconciled Amount is set equal to Total Billed.
3. The EPV is marked as fully reconciled.

8.6 Batch Reconciliation

1. Use checkboxes to select multiple EPVs.
2. Enter amounts for each selected row.
3. Click "Batch Reconcile".
4. All selected EPVs are processed at once.

Tip: Use the "Select All" checkbox in the header to quickly select all visible rows.

8.7 Financial Charts

Charts below the table show monthly Billed vs Reconciled trends and Outstanding by Province.

9. Company Overview

A detailed view of any company — its information, contacts, EPV history, and payment status.

9.1 Selecting a Company

1. Navigate to Company Overview.
2. Search for a company by name, client ID, or town.
3. Select it from the dropdown results.

9.2 Company Information

Displays: Business Name, Client ID, Account Code, Email, Town, Facility Type, Province, Company Reg No., Physical Address. Click "Edit" to modify editable fields, then "Save Changes".

9.3 Contact Details

Three expandable cards: Abattoir Owner, Accounts Contact, and Abattoir Manager — each with name, phone, and email.

9.4 EPV History

A table of all EPVs for the company showing: Reference #, Status, Period, Amount Billed, Amount Paid, Outstanding, POP Status, and Payment Status.

Expand any row to see the 7-step progress tracker:

- EPV Sent > Facility Completes > Inspector Verification > Inspector EPV (if rejected) > Invoice Sent > POP Uploaded > Payment Reconciled.

9.5 Proof of Payment (POP)

- Clients upload POP from their Company Overview.
- Upload auto-sets ClientPaymentStatus to "Paid".
- If POP is deleted, status resets to "Not Paid".
- You can view and download uploaded POP files.

9.6 Payment Status

- **Paid:** POP has been uploaded (green badge). Set automatically.
- **Not Paid:** No POP uploaded yet.

Note: POP is not required for reconciliation — you can reconcile from the Admin Dashboard regardless.

10. User Management

The User Management page lets you view and manage system users. Some actions are restricted to Super Admin.

10.1 Viewing Users

The table shows: Name, Email, Role, Status (Active/Inactive), Province (for Inspectors), Company (for Company users), and Created date.

10.2 Editing a User

1. Click the "Edit" button on the user's row.
2. A modal opens with: First Name, Last Name, Email, Role.
3. If changing to Inspector, select the province.
4. Click "Save Changes".

10.3 Activating / Deactivating a User

1. Click "Activate" or "Deactivate" on the user row.
2. Confirm in the modal.
3. Deactivated users cannot log in but their data is preserved.

Note: You cannot deactivate your own account.

10.4 Deleting a User

1. Click "Delete" on the user row.
2. Confirm the deletion.

Note: This action cannot be undone. You cannot delete your own account.

10.5 Actions You Cannot Perform

The following require Super Admin access:

- **Add New Users:** The "+ Add User" button is not available to Admin users.
- **Reset Passwords:** The "Reset PW" button is not available to Admin users.

Tip: Contact the Super Admin if you need a new user created or a password reset.

11. Support Ticket System

11.1 Creating a Ticket

1. Click the floating "Support" button (bottom-right of any page).
2. Select an Issue Type from the grouped dropdown:
 - Account & Access, EPV & Verification, Payment & Reconciliation, Dashboard & Reports, Company & Facility, General.
3. Enter a Subject and optional Description.
4. Select Priority: Low, Medium, High, or Urgent.
5. Click "Submit Ticket".

11.2 Managing Tickets

On the Support page you can:

- View all tickets from all users.
- Filter by Status, Priority, or Category.
- Click a ticket to open its detail view.
- Change the Status (Open > In Progress > Resolved > Closed).
- Change the Priority level.
- Assign the ticket to an Admin or Super Admin user.
- Add comments visible to the ticket creator.

12. Step-by-Step Workflows

12.1 Full Workflow: Client to Reconciliation

1. Add the client on the Clients page (or find existing).
2. Invite the company user via the "Invite" button.
3. Send an EPV form via "Send EPV".
4. Client completes the 4-step form.
5. EPV appears on Inspector Dashboard > "Pending Approvals".
6. Approve or reject the EPV.
7. If rejected: complete the inspector form with correct figures.
8. Client uploads POP — status becomes "Paid".
9. Reconcile the payment on the Admin Dashboard.
10. EPV moves to "Reconciled" — process complete.

12.2 Monthly EPV Cycle

1. Send EPVs to all active clients from the Clients page.
2. Monitor "Not Completed" tab for facilities that haven't submitted.

3. Follow up with non-responsive clients.
4. Approve/reject submitted EPVs on the Inspector Dashboard.
5. Reconcile payments as POP files are uploaded.
6. Review Dashboard KPIs to track overall performance.

12.3 Handling a Disputed EPV

1. Go to Inspector Dashboard > "Pending Approvals".
2. Click "Reject & Inspect" on the disputed EPV.
3. Fill in the correct amounts on the inspector form.
4. Submit. Both the original and corrected versions stay on file.
5. Reconcile against the correct levy amount on the Admin Dashboard.

12.4 Reconciling Multiple Payments at Once

1. Go to the Administrator Dashboard.
2. Use filters to narrow to the relevant province/month/year.
3. Select EPVs using checkboxes (or "Select All").
4. Enter amounts for each, or use "Mark Full" where applicable.
5. Click "Batch Reconcile".
6. Review the success message confirming how many were processed.

13. Troubleshooting & FAQ

Q: A client didn't receive the EPV email.

Check the client record on the Clients page — ensure all email fields are correct (primary, owner, accounts, manager). Resend using "Send EPV".

Q: An EPV is stuck on "Pending".

The client may not have fully submitted. Ask them to click the secure link again and check all required fields. The link stays valid until submission.

Q: I need to correct amounts on a submitted EPV.

Go to Inspector Dashboard, find the EPV, click "Reject & Inspect", and fill in the corrected figures. The original is preserved for audit.

Q: A client uploaded the wrong POP.

Go to Company Overview for that client, find the EPV, and delete the POP. Status resets to "Not Paid". Client can re-upload.

Q: I need a new user created or a password reset.

These actions require Super Admin access. Contact the Super Admin directly or submit a support ticket with the request details.

Q: How do I find facilities that haven't submitted this month?

Go to Inspector Dashboard > "Not Completed" tab. Use the month filter to focus on a specific month.

Q: Can I reconcile without a POP?

Yes. You can reconcile from the Administrator Dashboard regardless of whether a POP has been uploaded. POP is for record-keeping.

Q: The KPI targets seem wrong.

KPI targets can only be edited by the Super Admin. Contact them to request an adjustment.

Q: I accidentally deleted a client record.

Client deletions are permanent. The record must be re-entered manually. Check the Change Log for the last known values.

— End of Manual —

Generated: 23 March 2026

Recent Updates - April 2026

This section summarises the changes shipped in April 2026. Earlier sections of this manual remain accurate; the items below override or extend them.

EPV period now reflects the previous month

Whenever an EPV is issued (manually from the Consolidated Master Facility Database or Company Overview, or automatically each month), the verification is created for the previous calendar month.

Example: an EPV issued in March 2026 captures February 2026 data.

Automatic monthly EPV sending

Once a facility has been placed on the EPV cycle (status 'On EPV Cycle'), the system now automatically issues that facility a fresh EPV at the start of every month covering the previous month's data. The scheduler runs once a day; if the previous-month EPV is already present, nothing is sent. The email goes to all four facility addresses on file (primary, owner, accounts and manager). To take a facility off the cycle, clear its EPVCycleStatus on the Consolidated Master Facility Database page.

Resend EPV email button

The Company Overview window now shows a 'Resend Email' button alongside every Pending EPV. Use it when a facility reports they never received the original notification - it re-sends the same EPV link to all facility email addresses on file. No new EPV record is created and the resend is logged in EmailSendLog.

Facility verified status now visible

The Consolidated Master Facility Database page shows a 'Verified' badge once the facility's invited Company Admin has accepted their invitation and completed the onboarding wizard. A separate 'On EPV Cycle' tag indicates the facility is on the monthly auto-send schedule. The status cell stays empty until one of those two events applies.

EPV form (Eggs page) - new 'Eggs Exported' deduction

Section C (Deductions) now includes 'Eggs Exported'. Like the other deductions, it reduces the theoretical closing stock and does NOT affect the egg levy (only Section D Sales drives the levy).

EPV form (Eggs page) - purchase source detail and attachments

When Graded Eggs Purchased or Ungraded Eggs Purchased is greater than zero, a 'Source & Supplier Detail' comment box opens under Section B together with a file uploader. Facility users and inspectors can describe where and from whom the purchase was made, and attach supporting documents (PDF, PNG, or JPG, up to 15 MB each). Uploaded files appear with a 'Remove' button while the EPV is still editable, and as inline links in the Review section.

EPV form (Pulp page) - 'Conversion Loss' line

Sales & Deductions on the pulp page now has a 'Conversion Loss' row directly below 'Sold to Other Producers'. Conversion loss does NOT contribute to the pulp levy, but it is subtracted from closing pulp stock so the carry-forward stays balanced.

EPV form (Pulp page) - pulp purchase source detail and attachments

When 'Pulp Purchased from Others' is greater than zero, a comment box and uploader appear (same 15 MB limit and PDF/PNG/JPG rules) so the source of the purchased pulp can be recorded and supporting documents attached.

Verifications can only be captured for completed months

The 'Add Verification' modal in Company Overview now defaults to the previous month, and the month picker hides the current and any future months. The backend rejects current-month submissions with a clear error message: a month must be over before its EPV can be captured.
