4. Sending EPV Forms to Clients
5. Inspector Dashboard
6. Approving & Rejecting EPVs
7. Administrator Dashboard & Reconciliation
8. Company Overview
9. User Management
10. Support Ticket System
11. KPI Target Management
12. Step-by-Step Workflows
13. Troubleshooting & FAQ

1. Getting Started

1.1 Logging In

1. Open your browser and navigate to the EPVS application URL.
2. Enter your email address and password on the login page.
3. Click "Sign In" to access the system.
4. You will be redirected to the Dashboard.

Tip: Your default credentials are provided by the system administrator. Change your password after first login for security.

1.2 Navigation Bar

The navigation bar at the top of every page provides access to all system areas. As a Super Admin, you have access to every page:

Menu Item	Description
Dashboard	System-wide overview with KPIs, charts, stats, and recent activity
Clients	Consolidated Master Abattoir Database — manage all client/facility records
Inspectors	Inspector dashboard — approve/reject EPVs, track facility visits
Administrators	Financial reconciliation dashboard — manage payments and outstanding amounts
Company Overview	Detailed view of any company — EPV history, contacts, POP uploads
Support	Support ticket management — view, assign, and respond to tickets
User Management	Create, edit, activate/deactivate, and delete user accounts

Your name and role badge are displayed in the top-right corner alongside the "Sign Out" button.

1.3 User Roles Overview

Understanding the role hierarchy helps when managing users and permissions:

Role	Access Level	Primary Responsibilities
Super Admin	Full system access	Everything — user management, KPI targets, all dashboards, reconciliation, client management
Admin	Near-full access	Same as Super Admin except cannot edit KPI targets, add users, or reset passwords
Inspector	Inspector dashboard only	Approve/reject EPVs, complete inspector forms, track facility visits (province-filtered)
Company Admin	Company overview only	View allocated facilities, create manual EPVs, complete EPV forms, upload POP
User	Basic company access	Complete EPV forms sent to them, upload POP

2. Dashboard Overview

The Dashboard is your central command centre, providing a holistic view of the entire EPVS system at a glance.

2.1 Quick Stats Cards

Four clickable cards at the top provide key metrics. Clicking each card navigates to the relevant page:

- **Total Users:** Shows the total number of users in the system and how many are active. Click to go to User Management.
- **Total Clients:** Shows the total client/facility records and how many are verified. Click to go to Clients.
- **EPV Forms:** Shows total EPV forms and how many are completed. Click to go to Company Overview.
- **Support Tickets:** Shows total tickets and how many are open. Click to go to Support.

2.2 Performance KPIs

Four KPI gauge cards display real-time performance against configurable targets:

KPI	What It Measures	Default Target
Collection (Prior Months)	Percentage of total billed amounts that have been paid for past months	80%
Collection (Current Month)	Percentage of current month's billed amount that has been paid	80%
Approvals Actioned	Percentage of completed EPVs that have been verified by an inspector	90%
Facilities Visited	Percentage of facilities physically visited this quarter	100%

Each card shows the current value, a colour-coded progress bar, and an "ON TARGET" or "BELOW TARGET" badge.

- **Green:** Value meets or exceeds the target.
- **Orange:** Value is approaching the target (within 75-99%).
- **Red:** Value is significantly below the target.

Note: Only Super Admin can edit KPI targets. See Section 11 for instructions.

2.3 Action Items & Financial Summary

This module has two panels side by side:

Action Items (left panel):

- **Pending Approvals:** EPVs completed by clients but not yet verified by an inspector.
- **Inspector EPVs to Complete:** EPVs that were rejected — the inspector must complete their own form.
- **Facilities Need Visit:** Facilities with no physical inspection this quarter.
- **Not Completed EPVs:** Facilities that have not submitted EPVs for months in the current year.

Tip: Click any action item card to navigate directly to the Inspector Dashboard.

Financial Summary (right panel):

- Total Billed, Total Paid, and Outstanding amounts.
- Egg Levy and Pulp Levy breakdowns with dozen counts and rand values.
- Overall Collection Rate percentage.

2.4 EPV Statistics

Six stat cards showing: Total Facilities, Completed EPVs, Verified EPVs, Rejections, Inspections Done, and Outstanding count.

2.5 Charts

Four interactive charts with hover tooltips:

- **Total Billed vs Paid (Bar Chart):** Monthly comparison of amounts billed versus amounts received.
- **Egg Levy vs Pulp Levy (Line Chart):** Monthly trend of egg levy and pulp levy amounts.
- **Facilities by Province (Pie Chart):** Distribution of facilities across the nine South African provinces.
- **Rejections by Province (Bar Chart):** Rejection counts per province to identify problem areas.

2.6 System Overview

Three breakdown cards showing: Users by Role (horizontal bars), Client Verification (verified/unverified/pending invites), and Ticket Overview (open/in-progress/resolved/closed).

2.7 Recent Activity

Two tables showing the 5 most recent users who joined and the 5 most recent support tickets. Each has a "View All" button.

3. Client Management

The Clients page (Consolidated Master Abattoir Database) is where you manage all facility/client records.

3.1 Viewing Clients

The page displays a paginated table (50 records per page) with columns: Status, Client ID, Business Name, Account Code, Email, Town, Facility Type, Province, Company Reg No., Physical Address, and more.

Tip: Use the search bar at the top to quickly find a client by name, ID, email, or town.

3.2 Adding a New Client

1. Click the "+ Add New" button at the top of the page.
2. A blank row appears at the top of the table with editable fields.
3. Fill in the Client ID and/or Business Name (at minimum).

4. Fill in additional fields: Email, Town, Facility Type, Province (dropdown), Company Reg No., Physical Address.
5. Click "View" to expand and fill contact details: Abattoir Owner, Accounts Contact, and Abattoir Manager.
6. Click the "Add" button to save the record.
7. The table refreshes and the new client appears.

3.3 Editing a Client

1. Find the client record in the table.
2. Click the "Edit" button on that row.
3. All fields become editable and the contact details section auto-expands.
4. Make your changes — modified fields are highlighted.
5. Click "Save" to commit changes, or "Cancel" to discard.

Note: All edits are logged in the audit trail with your name, role, and timestamp.

3.4 Deleting a Client

1. Click the "Delete" button on the client row.
2. A confirmation modal appears showing the client name and ID.
3. Click "Confirm" to permanently delete, or "Cancel" to abort.

Note: This action cannot be undone. All associated data will be removed.

3.5 Viewing the Change Log

Click the "Change Log" button to toggle to the audit trail view. This shows every change made to client records:

- Date/Time of the change.
- Client ID and Business Name affected.
- Field Changed, Old Value, and New Value.
- Who made the change (Changed By).

Tip: Click the "History" button on a specific row to filter the Change Log to that client only.

3.6 Inviting a Company User

1. Ensure the client record has a valid email address.
2. Click the "Invite" button on the client row.
3. A modal opens showing the company name and email.
4. Select the role: "Company Admin" (can verify business details) or "User" (view-only access).
5. Click "Send Invitation".
6. The client receives an email with a registration link.

4. Sending EPV Forms to Clients

EPV forms are sent to clients from the Clients page. Each facility receives one EPV per month.

4.1 How to Send an EPV

1. Navigate to the Clients page.
2. Find the client/facility in the table.
3. Click the "Send EPV" button on that row.
4. The system will:
 - Check that no EPV already exists for this month.
 - Generate a unique reference number (e.g., EPV-2026-03-0042).
 - Create an EPV record with Status = "Pending".
 - Auto-populate opening stock from the previous month's closing stock.
 - Email a secure form link to all facility contacts.
5. A success message confirms the EPV has been sent.

Note: Only one EPV per facility per month is allowed. If one already exists, the system will show an error.

4.2 What the Client Receives

The client receives an email with a secure link to the 4-step EPV form:

- **Step 1 — Business Details:** Facility name, type, province, authorised person, contact numbers.
- **Step 2 — Egg Levy:** Opening stock, purchases, deductions, sales. The system calculates: Egg Levy = Total Sales x 1.8%.
- **Step 3 — Pulp Levy:** Pulp stock, purchases, conversions, sales. Pulp Levy = Pulp Sold to Trade x 1.7 x 1.8%.
- **Step 4 — Review & Submit:** Review all figures and submit. Status changes to "Completed".

4.3 What Happens After Submission

Once a client submits their EPV form:

- The EPV Status changes from "Pending" to "Completed".
- The EPV appears on the Inspector Dashboard under "Pending Approvals".
- The reference number, amounts, and levy calculations are locked in.
- The client can view their submitted EPV from the Company Overview.

5. Inspector Dashboard

The Inspector Dashboard provides tools for EPV verification, facility visit tracking, and performance monitoring. As Super Admin, you can view all provinces or filter by a specific one.

5.1 Province Filter

At the top-right of the page header, a province filter dropdown lets you view data for a specific province or all provinces. Inspectors only see their assigned province, but Super Admin can see everything.

5.2 Performance KPIs

Same four KPIs as the main Dashboard, filtered by the selected province: Collection Rate (prior months and current month), Approvals Actioned, and Facilities Visited.

5.3 Five Tabs

The main content area has five tabs:

Tab	Shows	Actions Available
Pending Approvals	Completed client EPVs awaiting inspector verification	"Approve" or "Reject & Inspect" per row
Inspector EPVs	Rejected EPVs where inspector must complete their own form	Click to open and complete the inspector form
Facilities Need Visit	Facilities with no physical inspection this quarter	View facility details
Outstanding Payments	Facilities with unpaid/outstanding levy amounts	View outstanding amounts per facility
Not Completed	Facilities missing EPVs for months this year	View by month filter; identify gaps

Tip: Each tab has its own search bar and sortable columns. Click any column header to sort ascending/descending.

5.4 Financial Summary & Charts

Below the tabs, a financial summary panel shows Total Billed, Paid, Outstanding, and Collection Rate. Two charts display monthly trends for Billed vs Paid and Egg Levy vs Pulp Levy.

6. Approving & Rejecting EPVs

6.1 Approving an EPV

When you are satisfied that a client's EPV figures are correct:

1. Navigate to the Inspector Dashboard.
2. Click the "Pending Approvals" tab.
3. Find the EPV in the table (use search or sort if needed).
4. Click the "Approve" button on that row.
5. The system records your name, role, and timestamp.
6. The EPV is now marked as Verified (IsVerified = 1).
7. The EPV becomes eligible for reconciliation on the Admin Dashboard.

6.2 Rejecting an EPV

When the client's figures are incorrect and need correction:

1. Click the "Reject & Inspect" button on the EPV row.
2. A confirmation dialog appears — click "Confirm".
3. The system creates a new "Inspector EPV" linked to the original.
4. You are redirected to a blank EPV form to enter the correct figures.
5. Fill out the form with the verified production numbers.
6. Submit the inspector form.
7. Both the original client EPV and your inspector EPV are now on record.

Note: The original client EPV is NOT deleted — it remains on file. The inspector EPV serves as the corrected version.

7. Administrator Dashboard & Reconciliation

The Administrator Dashboard is focused on financial reconciliation — ensuring that levy payments match billed amounts.

7.1 KPI Overview

Four KPIs specific to administration:

KPI	What It Measures	Target
Collection Rate	Percentage of total billed amounts received as payment	80%
Reconciliation Rate	Percentage of EPVs that have been fully reconciled	90%
Outstanding Rate	Percentage of billed amounts still outstanding (lower is better)	5% or less
Verification Rate	Percentage of EPVs verified by an inspector	90%

7.2 Reconciliation Tabs

EPVs are divided into three tabs:

- **Outstanding:** EPVs where the full levy amount has not been paid. Outstanding = Total Billed - Reconciled Amount > 0.
- **Partial:** EPVs where some payment has been received but the balance remains. ReconciledAmount > 0 but less than Total Billed.
- **Reconciled:** EPVs where the full amount has been received and marked as reconciled (IsReconciled = 1).

7.3 Filters

Use the filter bar to narrow results:

- Province — filter by specific South African province.
- Month — filter by reporting month.
- Year — filter by reporting year.
- Search — search by business name, client ID, or reference number.

7.4 Reconciling a Single EPV

1. Find the EPV in the Outstanding or Partial tab.
2. Enter the payment amount in the input field on that row.
3. Click the "Reconcile" button.
4. If the entered amount covers the full billed amount, the EPV moves to "Reconciled".
5. If the amount is less than the total, the EPV moves to "Partial".

7.5 Mark Full Payment

For EPVs where the full amount has been received:

1. Click the "Mark Full" button on the EPV row.
2. The system sets the Reconciled Amount equal to the Total Billed.
3. The EPV is immediately marked as fully reconciled.

7.6 Batch Reconciliation

1. Use the checkboxes to select multiple EPV rows.
2. Enter amounts for each selected row (or use the full billed amount).
3. Click the "Batch Reconcile" button.
4. All selected EPVs are processed at once.
5. A success message shows how many items were reconciled.

Tip: Use the "Select All" checkbox in the header to quickly select all visible rows.

7.7 Financial Charts

Below the table, charts show monthly trends of Billed vs Reconciled amounts and Outstanding by Province — useful for identifying patterns and problem areas.

8. Company Overview

The Company Overview provides a detailed view of any specific company, its EPV history, contacts, and payment status.

8.1 Selecting a Company

As Super Admin, you can view any company:

1. Navigate to the Company Overview page.
2. Use the search box to find a company by name, client ID, or town.
3. Select the company from the dropdown results.
4. The page loads with that company's full details.

8.2 Company Information

The top section displays the company's details: Business Name, Client ID, Account Code, Email, Town, Facility Type, Province, Company Reg No., and Physical Address. Click "Edit" to modify any editable field, then "Save Changes".

8.3 Contact Details

Three expandable contact cards: Abattoir Owner, Accounts Contact, and Abattoir Manager. Each shows name, phone, and email.

8.4 EPV History

A table showing all EPVs for this company with columns: Reference #, Status, Period, Amount Billed, Amount Paid, Outstanding, POP Status, and Payment Status.

Each EPV row can be expanded to show a progress tracker:

- Step 1: EPV Sent
- Step 2: Facility Completes EPV
- Step 3: Inspector Verification (Approved/Rejected)
- Step 4: Inspector Completes EPV (if rejected)
- Step 5: Invoice Sent
- Step 6: POP Uploaded
- Step 7: Payment Reconciled

8.5 Proof of Payment (POP)

Clients upload POP from the Company Overview. When uploaded:

- The ClientPaymentStatus automatically changes to "Paid".
- The file (PDF, PNG, or JPG, max 10MB) is stored on the server.
- If a POP is deleted, the status resets to "Not Paid".

- As Super Admin, you can view, download, or delete uploaded POP files.

8.6 Payment Status

Payment Status is a simple indicator:

- **Paid:** POP has been uploaded (shown as a green badge). This is set automatically.
- **Not Paid:** No POP uploaded yet (shown as a red/grey indicator).

Note: POP upload is not required for Admin to reconcile — you can reconcile from the Administrator Dashboard regardless.

9. User Management

Accessible from the navigation bar, this page lets you manage all system users.

9.1 Viewing All Users

The user table shows: Name, Email, Role, Status (Active/Inactive), Province (for Inspectors), Company (for Company Admin/User), and Created date.

9.2 Adding a New User

1. Click the "+ Add User" button (Super Admin only).
2. Fill in: First Name, Last Name, Email, Password (min 6 characters), and Role.
3. If Role = Inspector: Select an Allocated Province from the dropdown.
4. If Role = Company Admin or User: Search and select a company to link.
5. Click "Add User" to create the account.
6. The user can immediately log in with the provided credentials.

9.3 Editing a User

1. Click the "Edit" button on the user's row.
2. A modal opens with editable fields: First Name, Last Name, Email, Role.
3. If changing to Inspector role, select the allocated province.
4. Click "Save Changes".

9.4 Resetting a Password

1. Click the "Reset PW" button on the user's row (Super Admin only).
2. Enter the new password (minimum 6 characters).
3. Click "Reset Password".
4. Inform the user of their new credentials securely.

9.5 Activating / Deactivating a User

1. Click the "Activate" or "Deactivate" button on the user's row.

2. Confirm the action in the modal.
3. Deactivated users cannot log in but their data is preserved.

Note: You cannot deactivate your own account.

9.6 Deleting a User

1. Click the "Delete" button on the user's row.
2. Confirm the deletion in the modal.

Note: This action cannot be undone. You cannot delete your own account.

10. Support Ticket System

10.1 Support Button

A floating "Support" button appears in the bottom-right corner of every page. Any user can click it to submit a ticket.

10.2 Creating a Ticket

1. Click the floating Support button.
2. Select an Issue Type from the grouped dropdown:
 - Account & Access — permission issues, registration, role changes.
 - EPV & Verification — submission issues, data corrections, status problems.
 - Payment & Reconciliation — payment status, POP uploads, levy queries.
 - Dashboard & Reports — incorrect data, export issues.
 - Company & Facility — company info updates, province assignments.
 - General — help, feature requests, bugs, performance issues.
3. Enter a Subject and optional Description.
4. Select a Priority: Low, Medium, High, or Urgent.
5. Click "Submit Ticket".

10.3 Managing Tickets (Support Page)

The Support page shows all tickets in a filterable, sortable table.

As Super Admin, you can:

- View all tickets from all users.
- Filter by Status, Priority, or Category.
- Click a ticket to open its detail view.
- Change the Status (Open, In Progress, Resolved, Closed).
- Change the Priority level.
- Assign the ticket to an Admin user.
- Add comments to the ticket (visible to the ticket creator).

11. KPI Target Management

As Super Admin, you can adjust the KPI target percentages that determine whether performance metrics are flagged as "On Target" or "Below Target". These targets apply across the Dashboard, Inspector Dashboard, and Administrator Dashboard.

11.1 Editing KPI Targets

1. Navigate to the Dashboard.

2. Find the "EPV Performance KPIs" module.
3. Click the "Edit Targets" button in the top-right of that module.
4. A modal opens with input fields for each target:
 - Collection Rate (%) — applies to the Inspector Dashboard and main Dashboard.
 - Approvals Actioned (%) — applies to the Inspector Dashboard and main Dashboard.
 - Facilities Visited (%) — applies to the Inspector Dashboard and main Dashboard.
5. Enter new target values (0-100).
6. Click "Save Targets".
7. All dashboards immediately reflect the new targets.

Note: The Administrator Dashboard has additional KPI targets (Reconciliation Rate, Outstanding Rate, Verification Rate) which are also stored in the database and editable through this same mechanism.

11.2 KPI Target Defaults

KPI Key	Default Value	Used On
Collection Rate	80%	Dashboard, Inspector Dashboard
Approvals Actioned	90%	Dashboard, Inspector Dashboard
Facilities Visited	100%	Dashboard, Inspector Dashboard
Reconciliation Rate	90%	Administrator Dashboard
Outstanding Rate	5%	Administrator Dashboard
Verification Rate	90%	Administrator Dashboard

12. Step-by-Step Workflows

12.1 Complete Workflow: New Client to Reconciliation

This is the full end-to-end process for a new client:

1. Add the client record on the Clients page.
2. Invite the company user via the "Invite" button.
3. Send an EPV form via the "Send EPV" button.
4. Client receives email and completes the 4-step form.
5. EPV appears on the Inspector Dashboard under "Pending Approvals".
6. Inspector (or Super Admin) approves or rejects the EPV.
7. If rejected: Inspector completes their own EPV form with correct figures.
8. Client uploads Proof of Payment (POP) — payment status becomes "Paid".
9. Administrator (or Super Admin) reconciles the payment on the Admin Dashboard.
10. EPV moves to "Reconciled" status — process complete.

12.2 Monthly EPV Cycle

Each month, repeat this cycle for all facilities:

1. Send EPV forms to all active clients from the Clients page.
2. Monitor the "Not Completed" tab on the Inspector Dashboard for facilities that haven't submitted.
3. Follow up with non-responsive clients via support tickets or direct contact.
4. Approve/reject submitted EPVs on the Inspector Dashboard.
5. Reconcile payments as POP files are uploaded.
6. Review KPIs on the Dashboard to track overall performance.

12.3 Adding an Inspector

1. Go to User Management.
2. Click "+ Add User".
3. Enter the inspector's name, email, and a temporary password.
4. Select Role: "Inspector".
5. Select their Allocated Province from the dropdown.
6. Click "Add User".
7. Share the login credentials with the inspector securely.

12.4 Handling a Disputed EPV

1. If a client disputes levy amounts, navigate to the Inspector Dashboard.
2. Find the EPV under "Pending Approvals".
3. Click "Reject & Inspect" to create an Inspector EPV.
4. Fill in the correct amounts based on your records or physical inspection.
5. Submit the Inspector EPV.
6. Both versions remain on file for audit purposes.
7. Reconcile against the correct levy amount.

13. Troubleshooting & FAQ

Q: A client says they didn't receive the EPV email.

Check the client record on the Clients page. Ensure the email addresses are correct (primary email, abattoir owner email, accounts email, and manager email). Resend the EPV using the "Send EPV" button.

Q: An EPV is stuck on "Pending" and the client says they submitted it.

The form may not have been fully submitted. Ask the client to click the secure link again and check if all required fields are completed. The token link remains valid until the form is submitted.

Q: I need to correct amounts on a submitted EPV.

Use the Inspector flow: go to the Inspector Dashboard, find the EPV, click "Reject & Inspect", and fill in the corrected figures. The original EPV is preserved for audit purposes.

Q: A client uploaded the wrong POP file.

Navigate to the Company Overview for that client, find the EPV, and delete the POP file. The payment status will reset to "Not Paid". The client can then upload the correct file.

Q: The KPI targets seem wrong or need adjustment.

Go to the Dashboard, find the "EPV Performance KPIs" module, and click "Edit Targets". Only Super Admin can do this. Changes take effect immediately across all dashboards.

Q: A user is locked out / forgot their password.

Go to User Management, find the user, and click "Reset PW". Enter a new temporary password and share it with the user securely.

Q: I accidentally deleted a client record.

Client deletions are permanent. If the data is critical, the record will need to be re-entered manually. Check the Change Log for the last known values.

Q: How do I know which facilities haven't submitted this month?

Go to the Inspector Dashboard and click the "Not Completed" tab. This shows all facilities that haven't submitted a completed EPV for each month of the current year. Use the month filter to focus on a specific month.

Q: Can I reconcile a payment without a POP?

Yes. As Super Admin or Admin, you can reconcile payments directly from the Administrator Dashboard regardless of whether a POP has been uploaded. The POP is for record-keeping, not a prerequisite.

— End of Manual —

Generated: 23 March 2026

Recent Updates - April 2026

This section summarises the changes shipped in April 2026. Earlier sections of this manual remain accurate; the items below override or extend them.

EPV period now reflects the previous month

Whenever an EPV is issued (manually from the Consolidated Master Facility Database or Company Overview, or automatically each month), the verification is created for the previous calendar month. Example: an EPV issued in March 2026 captures February 2026 data.

Automatic monthly EPV sending

Once a facility has been placed on the EPV cycle (status 'On EPV Cycle'), the system now automatically issues that facility a fresh EPV at the start of every month covering the previous month's data. The scheduler runs once a day; if the previous-month EPV is already present, nothing is sent. The email goes to all four facility addresses on file (primary, owner, accounts and manager). To take a facility off the cycle, clear its EPVCycleStatus on the Consolidated Master Facility Database page.

Resend EPV email button

The Company Overview window now shows a 'Resend Email' button alongside every Pending EPV. Use it when a facility reports they never received the original notification - it re-sends the same EPV link to all facility email addresses on file. No new EPV record is created and the resend is logged in EmailSendLog.

Facility verified status now visible

The Consolidated Master Facility Database page shows a 'Verified' badge once the facility's invited Company Admin has accepted their invitation and completed the onboarding wizard. A separate 'On EPV Cycle' tag indicates the facility is on the monthly auto-send schedule. The status cell stays empty until one of those two events applies.

EPV form (Eggs page) - new 'Eggs Exported' deduction

Section C (Deductions) now includes 'Eggs Exported'. Like the other deductions, it reduces the theoretical closing stock and does NOT affect the egg levy (only Section D Sales drives the levy).

EPV form (Eggs page) - purchase source detail and attachments

When Graded Eggs Purchased or Ungraded Eggs Purchased is greater than zero, a 'Source & Supplier Detail' comment box opens under Section B together with a file uploader. Facility users and inspectors can describe where and from whom the purchase was made, and attach supporting documents (PDF, PNG, or JPG, up to 15 MB each). Uploaded files appear with a 'Remove' button while the EPV is still editable, and as inline links in the Review section.

EPV form (Pulp page) - 'Conversion Loss' line

Sales & Deductions on the pulp page now has a 'Conversion Loss' row directly below 'Sold to Other Producers'. Conversion loss does NOT contribute to the pulp levy, but it is subtracted from closing pulp stock so the carry-forward stays balanced.

EPV form (Pulp page) - pulp purchase source detail and attachments

When 'Pulp Purchased from Others' is greater than zero, a comment box and uploader appear (same 15 MB limit and PDF/PNG/JPG rules) so the source of the purchased pulp can be recorded and supporting documents attached.

Verifications can only be captured for completed months

The 'Add Verification' modal in Company Overview now defaults to the previous month, and the month picker hides the current and any future months. The backend rejects current-month submissions with a clear error message: a month must be over before its EPV can be captured.
