12. Troubleshooting & FAQ

1. Getting Started

1.1 How You Were Invited

You received an invitation email from the EPVS system (or from your Company Admin). The email contained a registration link. When you clicked the link and created your account, you were linked to your company's facility record.

Your account is tied to one specific company/facility. Everything you see in the system relates to that facility.

1.2 Logging In

1. Open your browser and navigate to the EPVS application URL.
2. Enter your email address and password.
3. Click "Sign In".
4. You will be redirected to the Company Overview — your home page.

Tip: If you have forgotten your password, contact your Company Admin or the EPVS administrator to reset it.

1.3 Navigation

Your navigation is simple and focused. The pages available to you are:

Menu Item	Description
Company Overview	Your main page — view company details, complete EPV forms, upload payments, and track progress
Support	Create and view support tickets if you need help

Your name and role badge ("User") are displayed in the top-right corner alongside the "Sign Out" button.

2. Your Role: What You Can and Cannot Do

2.1 What You Can Do

- View your company's details, contact information, and facility data.
- View all EPVs (Egg Production Verifications) for your facility.
- Complete EPV forms that have been sent to your company.
- Create manual EPVs for past months that don't have one yet.
- Upload Proof of Payment (POP) documents for completed EPVs.
- Track the progress of each EPV through its lifecycle.
- View invoices and download invoice PDFs.
- View the change log (audit trail) for your company.
- Create and view support tickets.

2.2 What You Cannot Do

The following actions require higher-level access and are not available to you:

- **Edit company details:** Only your Company Admin can edit company information and contacts.
- **Invite or manage users:** Only your Company Admin can invite new users, reset passwords, or remove accounts.
- **Access the system Dashboard:** The main Dashboard is for EPVS administrators only.
- **Access the Client Database:** The master client list is managed by EPVS administrators.
- **Access the Inspector Dashboard:** EPV verification is handled by assigned inspectors.
- **Access the Administrator Dashboard:** Financial reconciliation is an administrator function.
- **Approve or reject EPVs:** Only inspectors can verify production figures.
- **Reconcile payments:** Payment reconciliation is handled by EPVS administrators.
- **View other companies:** You can only see your own company's data.

2.3 User vs Company Admin

Your company may also have a "Company Admin" account. Here's how your access compares:

Feature	User (You)	Company Admin
View company details	Yes	Yes
Edit company details	No	Yes
Complete EPV forms	Yes	Yes
Create manual EPVs	Yes	Yes
Upload Proof of Payment	Yes	Yes
View invoices	Yes	Yes
View change log	Yes	Yes
Invite new users	No	Yes
Reset user passwords	No	Yes
Remove users	No	Yes

***Tip:** If you need your company details updated or a new colleague invited, ask your Company Admin.*

3. Company Overview — Your Home Page

The Company Overview is your central hub. It displays everything related to your facility.

3.1 Page Layout

The page is organised into sections from top to bottom:

1. Company Header

- Your company name, Client ID, Account Code, town, and verification status.
- Quick statistics: Active Users, Pending Invites, Verifications Due, Completed, Amount Outstanding.

2. Company Details

- Facility information and contact details (view only for your role).

3. Egg Production Verifications

- All EPVs for your facility — this is where you complete forms and upload POP.

4. Invoices

- View and download invoice PDFs.

5. Change Log

- Audit trail of all changes to your company record.

3.2 Header Statistics

The header shows five quick metrics:

Metric	What It Means
Active Users	Number of people with active accounts at your company
Pending Invites	Invitations sent but not yet accepted
Verifications Due	EPV forms sent to you that have not been completed yet
Completed	EPV forms that have been submitted
Amount Outstanding	Total levy amount owed across all your EPVs (in Rands)

4. Viewing Company Details

The Company Details section displays your facility's information. As a User, you can view but not edit these details.

4.1 Facility Information

Field	Description
Business Name	Registered name of your company
Client ID	Unique identifier assigned by EPVS
Account Code	Account reference code
Email	Primary contact email for the facility
Town	Town where the facility is located
Facility Type	Type of operation (e.g., Producer, Re-Packer)
Facility Province	South African province
Company Reg No.	Company registration number
Physical Address	Full physical address of the facility
VAT Number	VAT registration number

4.2 Contact Details

Three contact groups are displayed:

- **Abattoir Owner:** Owner name, cell phone, and email.

- **Accounts Contact:** Contact name, telephone, and email.
- **Abattoir Manager:** Manager name, cell phone, and email.

Note: If any of this information is incorrect, ask your Company Admin to update it. Accurate email addresses are important because EPV forms and invoices are sent to these addresses.

5. Egg Production Verifications (EPVs)

The EPV section is the most important part of the Company Overview. It lists all Egg Production Verifications for your facility.

5.1 What Is an EPV?

An EPV (Egg Production Verification) is a monthly form that records your facility's egg and pulp production figures. These figures are used to calculate the statutory levy your facility owes. Each month, the EPVS administrator sends an EPV form to your facility. You complete the form, and the system calculates the levy amount.

5.2 EPV Table

Each EPV appears as a row in the table with the following columns:

Column	Description
Ref #	Unique reference number (e.g., EPV-2026-03-0042)
Period	Month and year the EPV covers (e.g., March 2026)
Status	"Pending" (needs completing) or "Completed" (submitted)
Completed	Date and time the form was submitted
Facility EPV	"Complete" button (if Pending) or "View" (if Completed)
Inspector EPV	Shows if an inspector has reviewed and submitted their own version
Verified	Whether an inspector has approved the EPV
Amount Outstanding	Levy amount owed (Egg Levy + Pulp Levy) in Rands
Payment Status	"Paid" (POP uploaded) or "Not Paid"
Proof of Payment	Upload button or view link for your POP file
Amount Reconciled	Amount confirmed as received by the administrator
Reconciled	Whether the administrator has confirmed full payment

5.3 EPV Statuses

- **Pending:** The form has been sent to you but not yet completed. Click "Complete" to fill it out.
- **Completed:** You have submitted the form. It is now awaiting inspector verification.

5.4 Creating a Manual EPV

If you need to submit an EPV for a past month:

1. Click the "+ Add" button above the EPV table.
2. Select the Month and Year.
3. Click "Create".
4. The system creates a Pending EPV and takes you to the form.

Note: You cannot create EPVs for future months or for months that already have an EPV.

6. Completing the EPV Form — Step by Step

When you click "Complete" on a Pending EPV, you are taken to a 4-step form. Take your time and ensure all figures are accurate — once submitted, the form cannot be edited.

6.1 Step 1 — Business & Contact Details

Confirm your facility information. All fields marked with an asterisk (*) are required:

- Facility Name *
- Facility Type * — select Producer or Re-Packer
- Facility Province * — select from the 9 South African provinces
- Trading Name (optional)
- Owner/Manager/Authorised Person Name *
- Position in Company *
- Telephone Number *
- Cell Phone Number *
- Email Address *

Click "Next" when all required fields are filled. The system checks before allowing you to proceed.

6.2 Step 2 — Calculation of Statutory Levy (Eggs)

This is the main production form. Enter your egg figures for the month. All quantities are in dozens.

A. Opening Stock

- This is pre-filled from the previous month's closing stock.
- Verify it matches your records.

B. Purchases

- Graded Eggs Purchased — eggs bought that are already graded.
- Ungraded Eggs Purchased — eggs bought that are not yet graded.

C. Deductions

- Market Returns — eggs returned from buyers.
- Machine Loss — eggs damaged during processing.
- Sent to Pulp — eggs converted to pulp product.
- Destroyed — eggs disposed of.

D. Sales

- Sold to Trade — eggs sold to retailers/wholesalers.

- Sold to Staff — eggs sold to employees.
- Sold Through Farm Stall — eggs sold directly at the farm.

The system automatically calculates:

Egg Levy = Total Sales (D) x 1.8%

E. Transfers

- Transferred to Other Producers.

F. Closing Stock

- Theoretical Closing Stock = A + B - C - D - E (calculated automatically).
- Actual Closing Stock — enter your physical stock count.
- (Loss)/Gain = Actual - Theoretical.
- If there is a difference, you must provide an explanation in the text box.

6.3 Step 3 — Calculation of Statutory Levy (Pulp)

Enter your pulp production figures. Pulp quantities are in kilograms:

- Pulp Opening Stock (kg)
- Pulp Purchased (kg)
- Eggs Converted to Pulp (kg)
- Pulp Sold to Trade (kg)
- Pulp Sold to Other Producers (kg)

The system converts kilograms to dozens (x 1.7) and calculates:

Pulp Levy = Pulp Sold to Trade (kg) x 1.7 x 1.8%

6.4 Step 4 — Review & Submit

A summary page displays everything you entered:

- Business details.
- Egg production table with all line items and calculations.
- Pulp production table with all line items and calculations.
- Total owed: Egg Levy + Pulp Levy.

1. Review all figures carefully.
2. Click "Back" if anything needs correcting.
3. When satisfied, click "Submit Verification".
4. A success page confirms your submission with the total amount owed.

Note: Once submitted, the EPV cannot be edited. If you discover an error afterwards, submit a support ticket with the reference number and details of the correction needed.

6.5 After Submission

- Status changes from "Pending" to "Completed".
- An inspector will review your figures and approve or reject.
- Once approved and an invoice is issued, make the levy payment.
- Upload your Proof of Payment to confirm.

7. Uploading Proof of Payment (POP)

After paying the levy amount, upload your payment confirmation to the system.

7.1 How to Upload

1. Go to the Company Overview page.
2. Find the completed EPV in the table.
3. In the "Proof of Payment" column, click the upload button.
4. Select your file from your computer.
5. The file uploads and your Payment Status changes to "Paid" automatically.

7.2 File Requirements

Requirement	Details
Accepted file types	PDF, PNG, or JPG
Maximum file size	10 MB
What to upload	Bank statement, EFT confirmation, or payment receipt showing the levy amount paid

7.3 After Upload

- Payment Status changes to "Paid" (green badge) automatically.
- The upload date is recorded.
- The EPVS administrator can view your POP file and will reconcile the payment.

Tip: Upload your POP as soon as possible after payment to keep your records current and avoid follow-up queries.

7.4 Wrong File Uploaded?

If you uploaded the wrong file, submit a support ticket. The administrator can delete the incorrect POP and your Payment Status will reset to "Not Paid", allowing you to upload the correct file.

8. Tracking EPV Progress

Each EPV goes through a defined lifecycle. Click on any EPV row in the table to expand it and see the progress tracker.

8.1 The 7-Step Lifecycle

Step	Stage	What Happens	Your Action
1	EPV Sent	The administrator sends the EPV form to your facility	None — check your email
2	Facility Completes EPV	You fill out and submit the form	Complete the form
3	Inspector Verification	An inspector reviews your figures	None — wait for result
4	Inspector EPV	If rejected, the inspector submits corrected figures	None — see note below

5	Invoice Sent	An invoice is generated and emailed to you	Review the invoice
6	POP Uploaded	You upload Proof of Payment after paying	Upload your POP
7	Payment Reconciled	The administrator confirms your payment	None — complete!

8.2 Status Indicators

- **Completed (green):** This step is done.
- **Active/In Progress (orange):** This step is currently waiting for action.
- **Pending (grey):** This step has not been reached yet.

8.3 If Your EPV Is Rejected

If an inspector rejects your EPV, it means they believe the production figures are incorrect:

- Step 3 shows "Rejected".
- The inspector submits their own version with corrected figures (Step 4).
- The levy is calculated based on the inspector's figures.
- Your original submission stays on file for reference.

Tip: If you disagree with a rejection, submit a support ticket explaining why your figures are correct.

9. Viewing Invoices

The Invoices section shows all invoices generated for your facility.

9.1 What You See

- EPV Reference # — which EPV the invoice relates to.
- Period — the month and year.
- Invoice Number — click to download the PDF.
- Amount Owed — the levy amount in Rands.
- Invoice Status — "Sent", "Ready to Send", or "Awaiting Verification".
- Generated and Sent dates.

9.2 Downloading an Invoice

Click the invoice number link to download the PDF. Keep this for your records and use it to confirm the levy amount before making payment.

9.3 Invoice Statuses

- **Awaiting Verification:** Your EPV has not been verified by an inspector yet. No invoice is available.
- **Ready to Send:** The invoice has been generated but not yet emailed to you.
- **Sent:** The invoice has been emailed to your facility's contact email addresses.

10. Support Ticket System

10.1 Creating a Ticket

A floating "Support" button appears in the bottom-right corner of every page.

1. Click the Support button.
2. Select an Issue Type:
 - Account & Access — login or permission problems.
 - EPV & Verification — form issues, data corrections, status questions.
 - Payment & Reconciliation — payment status, POP upload issues, levy queries.
 - Dashboard & Reports — data issues.
 - Company & Facility — company info updates.
 - General — help, questions, bugs, other.
3. Enter a Subject (brief title).
4. Enter a Description with details (optional but recommended).
5. Select Priority: Low, Medium, High, or Urgent.
6. Click "Submit Ticket".

10.2 When to Submit a Ticket

- You can't log in or have password issues.
- The EPV form link from your email doesn't work.
- You need to correct figures on a submitted EPV.
- You uploaded the wrong POP file.
- Your company details are incorrect (and your Company Admin is unavailable).
- You disagree with an inspector's rejection of your EPV.
- Invoice amounts seem incorrect.
- System errors or slow performance.

10.3 Viewing Tickets

Go to the Support page to see your submitted tickets. Click any ticket to view its status, administrator comments, and updates.

11. Step-by-Step Workflows

11.1 Your Monthly EPV Workflow

Each month you will need to complete an EPV form. Here is the full process:

1. Check your email for the EPV form link, or log in and look for a Pending EPV.
2. Click "Complete" on the Pending EPV.
3. Step 1: Verify your business and contact details. Click "Next".

4. Step 2: Enter your egg production figures. Click "Next".
5. Step 3: Enter your pulp production figures. Click "Next".
6. Step 4: Review all figures. Click "Submit Verification".
7. Wait for the inspector to approve your EPV.
8. When you receive the invoice, make the levy payment.
9. Upload your Proof of Payment on the Company Overview.
10. The administrator reconciles your payment — done!

***Tip:** Complete EPV forms as soon as they arrive. Prompt submission keeps your facility in good standing.*

11.2 Submitting a Past-Month EPV

1. Log in and go to Company Overview.
2. Click "+ Add" in the EPV section.
3. Select the Month and Year.
4. Click "Create".
5. Complete the 4-step form and submit.

11.3 Uploading Proof of Payment

1. Make the levy payment via your bank.
2. Save the confirmation as a PDF, PNG, or JPG (max 10 MB).
3. Log in and go to Company Overview.
4. Find the EPV in the table.
5. Click the upload button in the "Proof of Payment" column.
6. Select your file.
7. Payment Status changes to "Paid".

12. Troubleshooting & FAQ

Q: I didn't receive an EPV email this month.

Check your spam/junk folder. If it's not there, log in and check the Company Overview — if a Pending EPV is listed, click "Complete". If not, submit a support ticket.

Q: The EPV link in the email doesn't work.

Log in directly to the system and go to your Company Overview. Find the Pending EPV and click "Complete" — this works the same way.

Q: I made a mistake on my submitted EPV.

Submitted EPVs cannot be edited. Submit a support ticket with the EPV reference number and details of what needs correcting.

Q: My opening stock figure is wrong.

Opening stock is carried from the previous month's closing stock. If it's wrong, the previous month's figures may need correcting. Submit a support ticket.

Q: What is the levy rate?

The statutory levy is 1.8% (0.018). For eggs: Total Sales x 1.8%. For pulp: Pulp Sold to Trade (kg) x 1.7 (conversion to dozens) x 1.8%.

Q: My EPV was rejected. What now?

The inspector believes your figures are incorrect and has submitted corrected figures. The levy is based on the inspector's version. Your original stays on file. If you disagree, submit a support ticket.

Q: I uploaded the wrong POP file.

Submit a support ticket. The administrator will delete the incorrect file, resetting your status to "Not Paid" so you can re-upload.

Q: How do I know how much I owe?

Check the "Amount Outstanding" column in the EPV table. You can also download the invoice PDF for the exact amount.

Q: I forgot my password.

Contact your Company Admin — they can reset your password. If there is no Company Admin, contact the EPVS administrator via email.

Q: Can I create EPVs for future months?

No. Manual EPVs can only be created for past months. Current and future month EPVs are sent by the EPVS administrator.

Q: How do I know if my payment was received?

Check the "Reconciled" column in the EPV table. Once the administrator confirms receipt, it shows as reconciled and the "Amount Reconciled" displays the confirmed amount.

Q: I can't edit my company details.

As a User, you cannot edit company details — only the Company Admin can. Ask your Company Admin to make the changes, or submit a support ticket if they are unavailable.

Q: I can't access the Dashboard or other admin pages.

This is expected. User accounts only have access to the Company Overview and Support pages. Other pages are for EPVS administrative staff.

— *End of Manual* —

Generated: 23 March 2026

Recent Updates - April 2026

This section summarises the changes shipped in April 2026. Earlier sections of this manual remain accurate; the items below override or extend them.

EPV period now reflects the previous month

Whenever an EPV is issued (manually from the Consolidated Master Facility Database or Company Overview, or automatically each month), the verification is created for the previous calendar month. Example: an EPV issued in March 2026 captures February 2026 data.

Automatic monthly EPV sending

Once a facility has been placed on the EPV cycle (status 'On EPV Cycle'), the system now automatically issues that facility a fresh EPV at the start of every month covering the previous month's data. The scheduler runs once a day; if the previous-month EPV is already present, nothing is sent. The email goes to all four facility addresses on file (primary, owner, accounts and manager). To take a facility off the cycle, clear its EPVCycleStatus on the Consolidated Master Facility Database page.

Resend EPV email button

The Company Overview window now shows a 'Resend Email' button alongside every Pending EPV. Use it when a facility reports they never received the original notification - it re-sends the same EPV link to all facility email addresses on file. No new EPV record is created and the resend is logged in EmailSendLog.

Facility verified status now visible

The Consolidated Master Facility Database page shows a 'Verified' badge once the facility's invited Company Admin has accepted their invitation and completed the onboarding wizard. A separate 'On EPV Cycle' tag indicates the facility is on the monthly auto-send schedule. The status cell stays empty until one of those two events applies.

EPV form (Eggs page) - new 'Eggs Exported' deduction

Section C (Deductions) now includes 'Eggs Exported'. Like the other deductions, it reduces the theoretical closing stock and does NOT affect the egg levy (only Section D Sales drives the levy).

EPV form (Eggs page) - purchase source detail and attachments

When Graded Eggs Purchased or Ungraded Eggs Purchased is greater than zero, a 'Source & Supplier Detail' comment box opens under Section B together with a file uploader. Facility users and inspectors can describe where and from whom the purchase was made, and attach supporting documents (PDF, PNG, or JPG, up to 15 MB each). Uploaded files appear with a 'Remove' button while the EPV is still editable, and as inline links in the Review section.

EPV form (Pulp page) - 'Conversion Loss' line

Sales & Deductions on the pulp page now has a 'Conversion Loss' row directly below 'Sold to Other Producers'. Conversion loss does NOT contribute to the pulp levy, but it is subtracted from closing pulp stock so the carry-forward stays balanced.

EPV form (Pulp page) - pulp purchase source detail and attachments

When 'Pulp Purchased from Others' is greater than zero, a comment box and uploader appear (same 15 MB limit and PDF/PNG/JPG rules) so the source of the purchased pulp can be recorded and supporting documents attached.

Verifications can only be captured for completed months

The 'Add Verification' modal in Company Overview now defaults to the previous month, and the month picker hides the current and any future months. The backend rejects current-month submissions with a clear error message: a month must be over before its EPV can be captured.
